Handbook MULTI-SPECIES
FOR OUR furry friends!

TeloPet Premium Daily Nutrient Powder
Advanced Multi-Nutrient Formula

What is TeloPet?

TELOPET is an advanced, multi-species **Stem Cell Activation Nutrition** product

designed to support health, longevity, and vitality at a cellular level. Because the **biological building blocks for rejuvenation are universal**, this premium formula delivers **identical cellular support for dogs, cats, and horses alike**. By combining potent, naturally derived bioactives into an easy-to-use powder, TELOPET helps maintain healthy muscle and counter the signs of aging. Formulated to enhance mobility and youthful energy, it provides the essential nutrients needed to help them recover efficiently and stay active longer.

Store in a cool dry place after opening. Recommended for daily use for best results. Result may vary.

Experience the TeloPet Difference

Advanced Stem Cell Activation Nutrition for total body restoration.

Youthful Restoration: We don't just mask symptoms; we help your pet's body return to its natural, vibrant state.

Stem Cell Support: Our formula is designed to boost your pet's own stem cell production, release and activation for faster healing and cellular renewal.

Longevity Nutrition: A complete profile of high-potency nutrients specifically chosen for peak health and a longer, happier life.

Vitality & Longevity Scale

Take a moment to reflect on your pet's current behavior and check the corresponding number below.

① (Low Vitality): Withdrawn, immobile, or disinterested. ③ (Optimal Vitality): Vibrant, active, and fully engaged.

Symptoms & Behaviors	15 Days	1 Month	45 Days	2 Months
Energy & Vitality				
Do they show curiosity during walks, such as walking ahead or stopping to sniff around?				
When your pet wakes up, can they move right away smoothly without stiffness?				
Joints & Muscles				
Does your pet's hind thigh muscles feel firm and strong when you touch them?				
Do they climb stairs or get on and off the sofa without seeming hesitant?				
Appetite & Digestion				
Do they look excited and eager to eat when you give food or treats?				
Is your pet's stool hitting that healthy 'just right' balance—not too firm, but not too soft either?				
Coat & Skin				
Does your pet's coat look less dry and more shiny and vibrant?				
Rate their scratching/chewing: from constant/obsessive① to calm and vibrant③				
Vision & Reactions				
Do your pet's eyes look clear and bright, not cloudy or dull?				
Do they react quickly with their eyes when a treat or an object is tossed?				
State of mind				
How would you describe your pet's emotional state, from withdrawn and depressed① to vibrant, happy, and fully engaged③?				
Cleanliness				
Is your pet's breath and the inside of their ears clean and free from unpleasant odor?				

Serving Guide

Daily dose is calculated by their weight.

Under 5lbs

1/2 scoop daily

Under 30lbs

1 scoop daily

Over 30lbs

1 scoop 2x daily

Horses & Pigs*

5 scoops 2x daily

*(For mini pigs, scale by weight: approx. 1 scoop per 30 lbs).

Getting Started: Begin with the standard daily dose.

Pro Tip for Fussy Eaters & Sensitive Stomachs: Introduce TeloPet slowly by mixing a tiny pinch into each meal, gradually increasing to the full standard dose over one week. Mix with wet food, a moist mash, or room-temperature water for best results!

Activation Phase (For Weeks 2 through 4): Double the standard daily serving below to kickstart cellular rejuvenation.

→ **Advanced Support:** For animals navigating advanced aging or strain, Triple the daily dose for 3 months, then return to the standard maintenance dose.

Maintenance Phase (Ongoing): Return to the Standard Daily Serving below to sustain long-term mobility, muscle health, and vitality.
